

Waiver of liability regarding travel to Dental-EMT Clinics

Art. 2 (1) of the founding certificate of Dental Emergency Team e.V. provides the following:

The association, which is both politically and religiously neutral, aims to be a partner in all areas of medical dental care in needy countries, with disadvantaged ethnic groups or in particular in the Greek refugee camps.

This should be done primarily through the following measures:

1. Organization, possibly construction of medical and dental centers in close consultation and cooperation with the local competent authorities.
2. Professional dental education and training of locally available staff.
3. Improving prophylaxis and health education in schools / kindergartens / refugee camps and other suitable places.
4. Ensuring the minimum of medical and dental care in centers and rural regions.

In order to achieve this goal, the association helps in the search and dispatch of qualified dental personnel and the delivery of equipment and material, which is signed by bilateral agreements between the beneficiary partners.

Some of the clinics and dental clinics supported by Dental-EMT are located in areas which, according to the travel recommendations of the Federal Foreign Office, are problematic in terms of security or in which travel with different levels of urgency is not recommended.

The volunteers (and also other people, for example the members of the Dental-EMT association who are planning trips to the areas mentioned) are advised that absolute self-responsibility applies to this travel activity.

The undersigned volunteer confirms that he/she is familiar with the foreign situation or with the conditions in the refugee camps and especially with the political and social conditions in the country and in the area of the clinic(s) he/she plans to visit. He/she undertakes to study the travel information of the Federal Foreign Office carefully and to contact the local partners and their responsible diplomatic or consular representations prior to starting the trip to problematic countries.

Visiting clinics in areas of high risk of being kidnapped is prohibited.

Dental Emergency Team e.V. explicitly states that there is no obligation to partake in the projects. It is solely the volunteers who decide freely, at their own risk and with knowledge of the conditions in the country concerned, whether they want to volunteer in the clinic or dental station given all the information available and obtained. They are advised that Dental-EMT assumes no liability for travel and/or any problems and damage to people and property that may occur there, and that any personal injury or property damage of any kind must be borne by the individual concerned.

The volunteer also confirms that he/she is sufficiently insured against accident and illness. Insurance is the sole responsibility of the volunteer. The association Dental-EMT declines all liability in the event of an accident.

Taking note of the above and consenting, the undersigned therefore declares a waiver of liability to Dental Emergency Team e.V. and to the members of the Management Board of Dental Emergency Team e.V.
